

KETSIA ST-LOUIS NOEL

AI AUTOMATION & OPERATIONS STRATEGIST

Toronto/Ottawa, Canada | ketsiasln@gmail.com | 647-545-8958 | LinkedIn: [linkedin.com/in/ketsias](https://www.linkedin.com/in/ketsias) | Portfolio: [Link](#)
Federal Government Secret Level II Security Clearance | Bilingual: English & French

PROFILE

Bilingual operations and IT service management professional with experience supporting Government of Canada portfolios, high-priority incident coordination, data management, process improvement, business development support, and enterprise service delivery. Founder of COMMARKAI, applying this background to AI automation, generative AI, voice-assisted AI, workflow design, sales and marketing systems, CRM and process improvement, reporting workflows, and digital transformation. Known for translating complex operational issues into clear actions, documentation, practical systems, and decision-ready visibility.

CORE STRENGTHS

AI Automation & Business Systems: Agentic AI & AI Agents, Automation Strategy, Chatbot & Voice Assistant Configuration, Email & Media Monitoring Automation, Incident & Service Desk Management, Knowledge Base & SOP Development, Lead Generation Automation, Prompt Engineering (Chain-of-Thought, A/B Testing, Library Design, Optimization), Retrieval-Augmented Generation (RAG), Token Cost Management, Workflow Design

Technical, Data & Design Tools: Adobe Creative Cloud (After Effects, Illustrator, InDesign, Photoshop, Premiere Pro), APIs, AutoCAD, BMC Tools, Cognos, CRM Platforms, Enterprise Control Desk, Google AI Studio, HP Service Manager, IBM SmartCloud, Microsoft 365 (Access, Excel, Forms, OneNote, Outlook, Power Automate, PowerPoint, SharePoint, Teams, Visio, Word), Oracle Fusion AI Agent Studio, Power BI, SAP, SQL, Tableau, VAPI

Soft Skills: Data Analysis, Process Improvement, Quality Assurance, Stakeholder Communication, Value-Based Approach

PROFESSIONAL EXPERIENCE

Founder | AI Automation, Sales & Marketing Systems | **COMMARKAI** 2025 – Present | Toronto / Ottawa

- Built a media monitoring automation that aggregates news content, routes items through an editorial approval workflow, and delivers formatted email notifications, eliminating manual submission steps and accelerating publication turnaround.
- Leveraged monitored news content to generate timely, insight-driven LinkedIn posts that achieved high executive engagement, sparked strategic conversations, and converted visibility into qualified leads.
- Designed chain-of-thought prompt frameworks that improved complex reasoning accuracy across generative AI tasks and built a structured prompt library adopted as a reusable reference across workflows.
- Optimized RAG system prompts to improve retrieval relevance and measurably reduce AI hallucinations, increasing output reliability for client-facing use cases.
- Built a systematic prompt testing framework with A/B evaluation methodology, identifying performance gaps and driving iterative improvements to prompt quality and consistency.
- Automated prompt optimization pipelines and implemented strategic information retention techniques that reduced API costs and decreased manual review requirements.
- Prototype voice-assisted AI and agentic workflow solutions using VAPI, covering lead qualification, client intake, customer follow-up, call handling, knowledge support, and reporting automation.
- Authored proprietary SOPs and data-driven documentation, including structured knowledge bases, response frameworks, and training datasets, to configure and train AI responses across voice assistants, chatbots, and automated email communications.
- Scope automation opportunities across CRM systems, APIs, dashboards, low-code platforms, cloud environments, and enterprise backends, weighing business goals, operational complexity, and governance requirements.

Incident Coordinator / Tactical Incident Manager | **Shared Services Canada** 2016 – Present

- Lead incident coordination, escalation workflows, reporting, and stakeholder communications across Government of Canada portfolios, Crown corporations, and external clients.
- Author timely notifications, incident updates, and executive summaries that maintain clarity and confidence during service-impacting events.
- Apply quality assurance standards to incident reporting, improving data accuracy, consistency, and stakeholder trust.
- Manage incident tracking and action logs across a multi-tool environment including Microsoft 365 (SharePoint, OneNote, Outlook, Teams, Excel), Power BI, IBM SmartCloud, BMC Tools, Enterprise Control Desk, and HP Service Manager.
- Deliver technical support for operating systems, peripherals, account access, application issues, and security-related incidents.

IT Consultant / iOS Device Consultant | [Library of Parliament](#) 2016

- Configured, tested, and documented mobile device installations and updates across a large-scale technology rollout.
- Oversaw inventory tracking for mobile devices, warranty claims, and replacement processes, maintaining accurate records throughout.
- Delivered tailored device training to end users at varying technical levels and deployed software in compliance with House of Commons standards.

Customer Service Representative | [Knowledge First Financial](#) 2013 – 2016

- Delivered bilingual client support for Registered Education Savings Plans (RESPs), maintaining accurate client and financial records in Cognos Business Software.
- Resolved client and regional sales representative inquiries with a consistent focus on accuracy, professionalism, and practical solutions.
- Exceeded monthly referral targets and strengthened client retention through clear communication, sound judgment, and policy-aligned guidance.

Sales Service Manager (Contract) | [Canadian Bank Note Company](#) 2010 – 2011

- Supported business development directors on request-for-proposal submissions, sales activities, and client coordination.
- Liaised across service providers, regional managers, manufacturing, legal, sales, design, finance, and operations to fulfill client commitments and contractual obligations.
- Coordinated logistics and programming for dignitary visits, client engagements, and senior-level guest events.

Production Assistant / Canadian Bar Review Coordinator | [Canadian Bar Association](#) 2008 – 2010

- Contributed to the production of print and online legal publications reaching more than 39,000 subscribers across the legal community.
- Organized symposiums and legal conferences, managing subscriber relations, online store operations, invoicing, inventory, database updates, and mailouts.
- Proofread content and footnotes for compliance with the McGill Guide to Legal Citation.
